PRODUCT DESCRIPTION

Designer: Ines Paolucci and Daniele Statera

Slamp Diamond Table Lamp

Designed by the duo Ines Paolucci and Daniele Statera, the Slamp Diamond Table lamp is sculptural and eye catching. Inspired by the iconic works of Brancusi, this lamp is bold with a geometric design which allows the light source to accentuate its various facets and angles.

The Diamond Table Lamp is made up of a Opalflex® body and is mounted on a very thin and small plate made of aluminium. Opalflex® is characterized by its high quality and durability. It is lightweight and durable, with the functionality and aesthetics of this lamp ensuring it stands out against the rest of the market. The modern sculptural design is an exquisite sight to watch and will be best suited to be kept in the living room, dining area or public spaces where people tend to gather - providing everyone with light and an atmosphere to enjoy.
