PRODUCT DESCRIPTION

Designer: Zanini de Zanine

Slamp Flora Suspension Light

The Flora Suspension was designed by Zahini de Zanine for Slamp and is a perfect combination of natural beauty and modern technology. The design was inspired by a Swiss cheese plant, Zanine was inspired to utilise metal to grant the illusion of petals, these petals encapsulate the light source and result in a beautiful light pattern when the lamp is switched on which projects into the room.

This suspension comes in a range of materials depending on your desired colour finish. The range of finishes that are available all shine in their own way and create a vibrant lighting solution that is a great addition to a wide range of contemporary interiors. The Slamp Flora Suspension is perfect for providing warm ambient lighting in living areas, above dining tables and in your bedroom to create a cosy and inviting environment.
