### PRODUCT DESCRIPTION

**Designer:** Tham & Videgård

### Wastberg W171 Alma Ceiling/Wall Light

The Wastberg Alma ceiling/Wall light is forged from artfully formed aluminium and generates a warm atmosphere thanks to its diffused light that reflects off of the rippled shade. This luminaire takes up little space, fitting snugly to the ceiling or wall, making it an ideal lighting solution for smaller spaces or rooms with low ceilings.

The designers, Tham and Videgård, were inspired by a sine wave and utilised this concept to produce Alma. The light adopts a sculptural quality due to the intricate details and satin white finish, this results in the Alma Ceiling/Wall not only being a source of light but also a piece of art in your home or public space.

**Compatible with all major light track systems (adapter not included)**
