Wastberg Alma w171 Ceiling/Wall.

The starting point for w171 alma is a circle of soft sine waves diffusing light. The shape is based on a rotated sine wave, where light and shadow create a readily recognisable character. The lamp doubles as a solitary, for example freely suspended above a table, and in a group in a larger room - where it can create a pattern of floating points of light, like a ceiling of lights.

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions:

69 cm diameter

8 cm depth from wall

10 cm wall plate width

Colour: Signal White

Grey White
