PRODUCT DESCRIPTION

Designer: Fabio Novembre

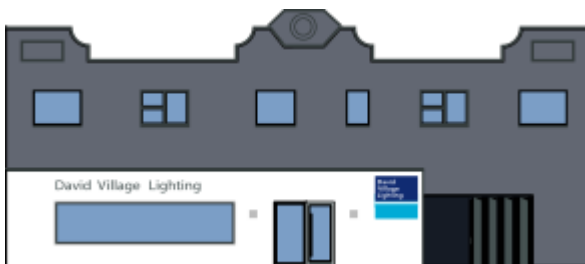

EUR by Kartell

A side table or stool, the EUR is a multi-functional product design by Fabio Novembre for Kartell. The design is inspired by the architectural rationalism which was developed in Italy in the 1920s and 1930s. Strict lines, resembling buildings and available in earthy colour options (white, grey, earth red or turtle-dove).

Just like the buildings it was inspired from, the EUR can fit into every environment and with its pastel colours easily transcends with the rest of the room. The EUR can be used both indoors and outdoors as it can withstand various weather conditions.
