KDLN Lanna Table Lamp

The Lanna table lamp was designed by Noé Duchaufour-Lawrance and was inspired by a small Thai town called Lanna where they send thousands of floating lanterns into the sky. The delicate opal glass shade mirrors the weightlessness of the lanterns as it seems suspended within the metal frame. This design emits a gentle glow through the double-layered opal glass that creates a calming atmosphere and soothing ambiance.

This light can be placed on a bedside table or as a stunning addition to a cosy corner of your home. The KDLN table lamp will bring a magical welcoming warmth to wherever they are placed.
