The Toot table lamp was designed by Karim Rashid and was inspired by the sixties and the bright colours of that era. The long tubular shades sit at different heights and create a dramatic silhouette. Dimmable via an in-line dimmer on the cable, this lamp can emit a delicate output of light or a more bright ambient light. Perfect for bedside tables, shelves, or decorative areas of your home. This design makes a statement within a room and elevates the interior. With its use of neutral and muted tones, the Toot can bring a calming ambient light to your space. The light is diffused through these coloured plexiglass tubes and creates a collective calming atmosphere.

Available in a [suspension light version](#), the Toot collection aims to provide beauty and light through its unique shade. The designer Karim Rashid describes his work as 'the role of a designer today is to make the world a better place through increasing our everyday behaviors, functionally and emotionally'.
