PRODUCT DESCRIPTION

Tom Dixon Top Pendant Light

Delicate and elegant, the geometry of the acid-etched conical form of the Tom Dixon Top is minimal but instantly recognisable. A super-fine filter of warm light glows from its micro pierced stainless steel shade. When switched off it appears as solid stainless steel, when switched on it looks semi-transparent and ethereal. Designed with the ability to be hung in many combinations, the effect of reflected polished stainless steel is a feat of manufacturing innovation.

Tom Dixon Top pendant is a stylish minimal design which lends itself to display in multiples to create impact, perfect for kitchen islands and dinning areas.
