Marset Jaima Floor lamp

Joan Gaspar has designed, through the language of textiles, a collection of flexible and beautifully diffused lights. Jaima collection takes its name from the Bedouin tents of North Africa and is inspired by their varied fabrics and forms. The Textilene shade is available in three sizes and four different colours, with a white interior to optimize the quality of the downward light. There are two stand options available to create the exact floor standing designed you need, available in two sizes which are also extendable.

Joan Gaspar's Jaima floor lamp is the perfect finishing touch to any living or social space in need of a stylish feature. The high overhead diffused shade creates an ambience effect as well as suitable for tasks such as reading.
