KDLN Hive Table Lamp

The Hive Table Lamp is an Art Deco-inspired lamp by designer Ini Archibong. Featuring a fine gold pattern throughout the body of the lamp, the Hive echoes traditional Japanese ceramics, mirroring their intricate, ornate qualities. This gold detailing is achieved through the third firing technique, which allows fine decoration to be added to ceramics. The base is available in Black, Red, and White, in a glossy finish that enhances the Hive's elegance.

When illuminated, the blown-glass diffuser softens the light into a warm, atmospheric glow, perfectly suited to bedrooms, living spaces, and dining rooms. In commercial spaces, the Hive Table Lamp adds a touch of sophistication and a welcoming ambience to boutiques, restaurants, and bars.
