PRODUCT DESCRIPTION

Designer: Alberto Saggia & Valerio Sommella

KDLN Kushi LED Floor Lamp

The KDLN Kushi floor lamp was inspired by Japanese cuisine and features three metal rods that appear to skewer three opal glass diffusers. Kushi, meaning skewer in Japanese, is a delicate and intricate design that uses intertwined metal rods that come in a selection of colours. The rods are available in a black, copper, or brass finish that gives this floor lamp an elegant touch.

This Kushi floor lamp is also LED integrated, making the light energy-efficient and environmentally friendly. These long-lasting light sources are also dimmable via the in-line dimmer located on the cable. This dimmable feature allows you to create the perfect atmosphere in your home and set this lamp to the ideal lumen output. Place this floor lamp in a living space, bedroom or dining space for an elegant and stunning addition to your interior.
