## PRODUCT DESCRIPTION

**Designer:** Ferruccio Laviani

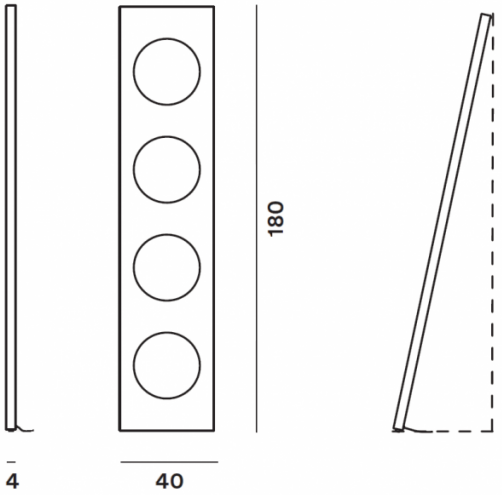

### Foscarini Dolmen LED Floor Lamp

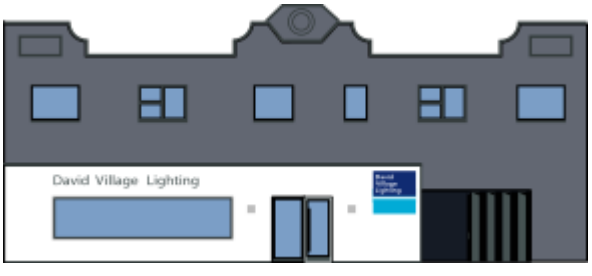

The Dolmen LED Floor Lamp was designed by Ferruccio Laviani in the mid-90s and is still a best seller from the brand Foscarini. Now updated with integrated LED technology, this floor lamp has a unique and abstract character, with 4 distinct holes which resemble the portholes of a ship. The lamp is unique as it stands up by being propped against the wall, with a small canopy holder provided to anchor it to the wall.

The Dolmen LED floor light emits a diffused and reflected light, acting as an ambient light to fill the room. Perfect for many spaces, the modernistic style and one-of-a-kind design make this lamp a chic addition to the room. Use in domestic or commercial settings in lounges, dining spaces and bedrooms. Fitted with a dimmer so you can adjust the light setting and with energy-saving LED light sources to provide a long-lasting glow.
