Muuto Mimic Mirror

The idea behind Mimic Mirror was to create a sculptural and practical table mirror, making it a decorative piece with a strong character. Repetition of various patterns, the triangles in the back, the vertical facets of the base and the mirror's reflections. The mirror is a playful object ideal for the bathroom, bedroom, living room; both decorative and functional in its use.

Normal Studio is a Paris based studio, whose designs try to overcome trends and fads and create objects with everlasting expressions. The Mimic Mirror achieves just that, its about a repetitive pattern and reflection, while its sculptural appearance makes its the centre of attention when you enter the room.
