PRODUCT DESCRIPTION

Designer: Greta M. Grossman

B-4 Table Lamp by Gubi

The B-4 Table Lamp, designed in 1945 by Greta M. Grossman is a playful and whimsical light that is emblematic of Grossman's design aesthetic. Made from 12 triangular panels, this light is characterised by its vibrant, colourful panels which can be rotated, diffusing light softly into the room in the way you want. With a stilt base, this lamp is reminiscent of Grossman's architectural projects as her houses in California would often be perched on stilts to take in the beautiful surroundings, making this lamp a true reflection of her design principles.

With a variety of colours available, this light fits comfortably in any design scheme and works best in home settings to create a warm and cosy atmosphere whilst adding a touch of eccentric chicness.
