PRODUCT DESCRIPTION

Designer: Space Copenhagen

Gubi Gravity Small Table Lamp

The GUBI Gravity Small Table Lamp is the more compact version of Space Copenhagen's Gravity design, pairing a weighty cylindrical base with a light, broad shade. The contrast between the two gives the lamp its distinctive shape, with a choice of marble or steel for the base and either a Canvas or White shade above.

Its smaller footprint works particularly well on bedside tables, desks, and side tables, where it provides a soft, ambient light without taking up too much surface space. Six base finishes are available, including the new for 2026 Emerald Marble and Maroon Marble, alongside White Marble, Grey Marble, Black Marble, and Black Steel.

An integrated dimmer on the product lets you adjust the light level directly at the lamp. Each base finish can be paired with either a Canvas Shade or White Shade, giving 12 combinations in the Small size. Most suited to bedrooms, living rooms, home offices, and smaller lounge spaces.
