PRODUCT DESCRIPTION

Designer: Morten & Jonas

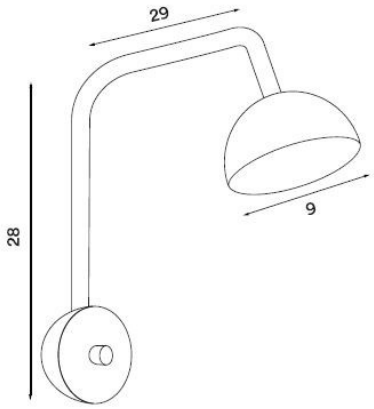

Northern Blush LED Wall Light

Design duo Morten & Jonas created the Blush Wall Light for Northern. Subtle curves and contours shape the lamp, giving it a clean and elegant profile. The arm is flexible, allowing you to direct its lighting where required. The direct lighting from the wall light makes it perfect for task lighting above a desk or used as a reading light when installed by a bedside. The lamp is made from enamelled steel and silicone, giving it a durable exterior, and is finished in three bold finishes: Pink, Black, and White. The inside of the shade is solid white, which optimises light reflection.

The Blush Wall Light is part of **The Blush Collection** which includes a pendant and a rail pendant. These can be displayed together to create a contemporary display throughout your home. The Blush Wall Light can be installed individually or as multiples in either domestic or commercial settings. The practical and aesthetically pleasing design make it an ideal lighting solution for a range of spaces.
