PRODUCT DESCRIPTION

Designer: Francesc Vilaró

Leds C4 Alive Suspension

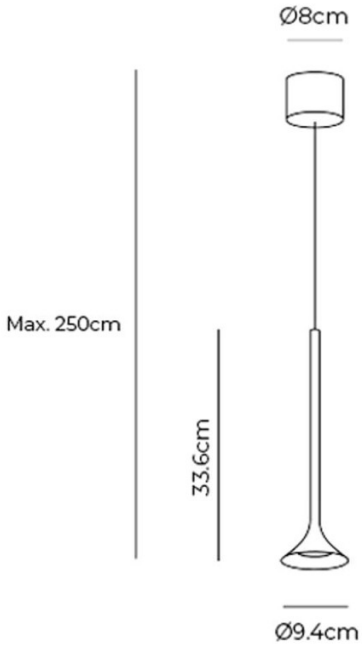

The Leds C4 Alive Suspension is a stripped-back downlighting solution that draws its concept from clarity. The design is based on the bare minimum required for illumination: the light source. Modern and minimalist, the high-quality frosted glass lampshade offers a silky, diffused and warm light that is projected onto the area below. For this reason, the luminaire makes an excellent addition to above kitchen islands, dining areas and stairwells.

With an eye-catching silhouette and monochromatic colour palette, the Alive Suspension also offers a ceiling rose system that allows you to combine numerous pendants to create unique configurations that add a striking aesthetic to your interior.

Please Note: The Leds C4 Alive Suspension can also be supplied with a spherical glass shade around the bottom of the structure; please contact us for more information and pricing.
