Kartell

Planet Floor Lamp by Kartell

Designed by Tokujin Yoshioka for Kartell, the [Planet](#) family of lamps are defined by their slightly elliptical diffuser and crystallised illusion design. This illusion and the transparent surface creates a multitude of reflections leading to a wondrous display of colour and light.

Available in two colours, crystal and smoke, the Planet Floor Lamp will add dazzle to your room and fits in nicely with a modern aesthetic. With both a small and large option you can create dynamism by pairing them and using contrasting colours to make a light spectacle for everyone to enjoy.

Designer: Tokujin Yoshioka
