PRODUCT DESCRIPTION

Designer: Terence Woodgate

Case Solid Cone Downlight

The Case Solid Cone Downlights are designed by British designer Terence Woodgate. Woodgate is known for his modern and minimalistic aesthetic, which can be reflected in this collection of lights. Made from either oak or walnut, these conical shades are designed to look sleek and elegant within your home. All fixings are concealed within the shade, maintaining the sleek profile of the lights. They have a small shadow gap between the ceiling and the shade to allow air flow and cooling of the lamp.

The Solid Cone Downlights will fit seamlessly into a range of decors, and look excellent installed as multiples, illuminating the length of a hallway. As they are made using natural materials, the grain and colour will vary slightly from piece to piece, making each shade completely unique.
