Yanzi Suspension by Artemide

Yanzi has a minimal, streamline design with balancing features. The design belongs to Neri&Hu who believe that research can be used as a tool in design. The Yanzi Collection was born when the designers noticed swallows resting on a nearby scaffolding. The Yanzi suspension depicts the avian figure contained inside a glass 'cage'. The 'swallows' have a brushed brass body and as a head, a glass sphere.

A contemporary and lightweight design that can animate any interior with a touch of poetry. The collection includes a floor and table lamp, and a suspension rail. The lights bring a mixture of tradition and innovation, characteristic of Neri&Hu, into any interior space.
