PRODUCT DESCRIPTION

Designer: Lee Broom

Lee Broom Eclipse 3-Piece Chandelier

The Lee Broom Eclipse Chandelier consists of three **Eclipse pendants** that are suspended from a circular ceiling canopy. The pendants feature mirror-polished chrome and acrylic discs that interact, dissect and obscure, which both eclipses and reveals its illumination to the viewer at the same time. The shading and mirrored effects make the given name of Eclipse perfect for this light - a striking, yet elegant chandelier which works beautifully in a wide range of contemporary interiors.

The Lee Broom Eclipse 3-Piece Chandelier is an extraordinary luminaire that should be placed in larger environments where its design can flourish. Resembling an art-deco style, this chandelier can be used as a focal point in your home. Perfect for entryways, kitchen, dining areas and larger commercial environments, especially in the hospitality sector.

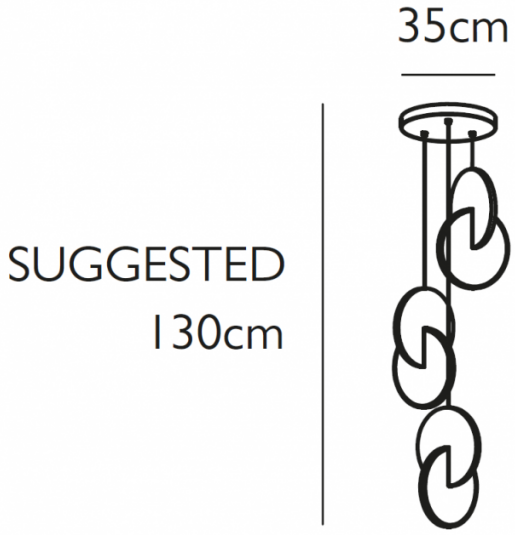

Please Note: The Lee Broom Eclipse Chandelier is supplied with a separate transformer.
