PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Sorry Giotto 3 LED Floor Lamp

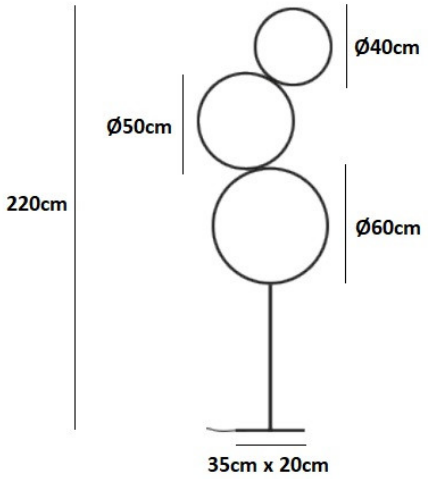

This Catellani & Smith floor lamp is an impressive structure of varying-sized copper rings seemingly balanced on top of one another. The vivid blue-painted copper rings create a geometric statement within a room. Whilst the bold blue adds a pop of colour to your interior without overpowering the space.

The 16 integrated LED lights create a gentle backlight that, when angled at a wall or corner, will perfectly light up your space with indirect glare-free light. This makes the simple design stand out even more and become a practical and beautiful lighting feature. Place this lamp in a living space, dining room, or hallway for an ambient and minimalist feature that will become the talking point of the room.
