PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Sorry Giotto 1 LED Table Lamp

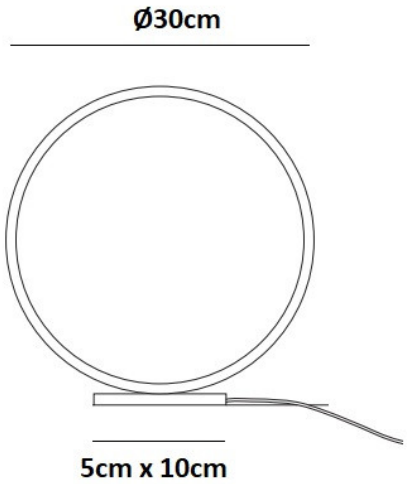

This simple design by Catellani & Smith is based on one of the simplest designs, the circle. Described by Enzo Catellani as the 'cleanest shape', this circular table lamp demonstrates the beauty of simplicity and the ease of minimalism. The thin copper ring is hand-painted in Catellani & Smith's iconic blue that would add a pop of bold colour to your space. The Copper ring has four embedded LED lights that, when switched on, bring a backlight to wherever you place your Sorry Giotto table lamp.

The metallic blue ring that makes up the main body of the lamp beautifully frames the surroundings behind it. Therefore, by having this thin and simplistic structure, the Sorry Giotto is not only a feature within itself but also makes the space behind the lamp a feature too. Ideal for highlighting your favourite area of your home or commercial space.
