PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Sorry Giotto LED Suspension

The Sorry Giotto suspension light is a simple contemporary design that puts emphasis on the bold blue hand-painted finish and sophisticated silhouette. The copper tubing that forms this uniquely simplistic design not only brings a feature to your home or commercial space but also frames and brightens the space behind the light.

Suspended from the ceiling, this blue beauty made of copper appears to perfectly setting in the space. This is due to the hardy iron anvil that is weighing it down to the ideal positioning on the floor. This engineering is a beautiful part of the design, showing industrial characteristics alongside the stunningly simple delicate blue ring. Featuring 12 LED integrated lights, this blue copper ring gently backlights your space and illuminates its silhouette.
