PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Wa Wa LED Table Lamp

This Wa Wa table lamp designed by Catellani is a minimalist statement that can be altered and adjusted to perfectly suit the space it is in. The adjustable lenses are finished with a beautiful example of handmade glass work that diffuses the LED light into your room. These glimmering dew drops on the end of each structure gives this lamp a delicate yet industrial appearance.

Through the centre runs a tall and sturdy metal rod that hold the whole structure in place whilst disappearing into the background. Catellani uses the method of elimination to create his designs, and this can be seen clearly in the Wa Wa table lamp as he has only left what is absolutely essential for the lamp to function. This minimalist mindset enhances a space effortlessly and emphasises the beauty of the materials.
