PRODUCT DESCRIPTION

Designer: Arik Levy

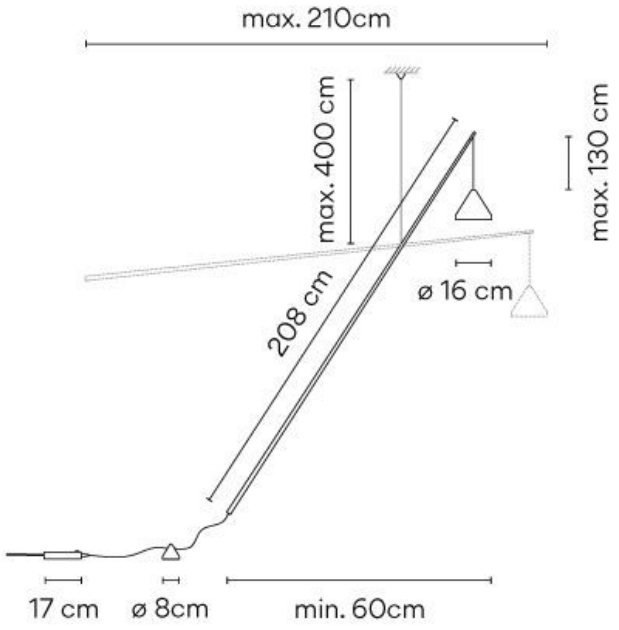

Vibia North 5666 LED Floor Lamp

Designed by Arik Levy, the Vibia North 5666 Floor Lamp combines the best elements of two applications. Suspended from the ceiling via an almost invisible steel cable, the light is equipped with a counterweight placed on the ground that guides the electrical cable and allows the stem and the aluminium shade to be placed wherever required.

Vibia North utilises geometric shapes, combining a carbon fibre rod structure and a conical shade that results in a direct illumination that can blend into almost any contemporary interior, no matter which finish you select. Decorative yet functional, this unique floor lamp boasts a deconstructed silhouette for an elegant feel in your space - a perfect addition to living spaces, dining rooms, workspaces or even in a reading nook. The possibilities are endless with this large yet unobtrusive lighting solution.
