PRODUCT DESCRIPTION

Designer: Antoni Arola

Palma 3724 LED Pendant Light by Vibia

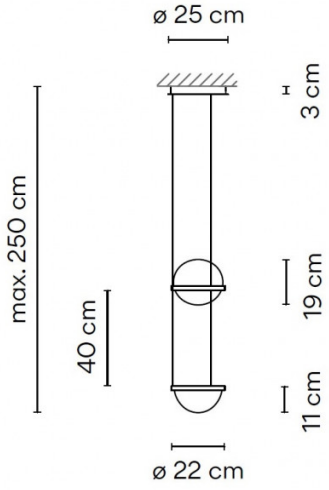

The Vibia Palma 3724 LED Pendant was designed by Antoni Arola to incorporate the outdoors, specifically plants and nature, into indoor spaces. His creation consists of a spherical diffuser which is suspended within a metal structure and is proudly displayed above a plant pot. The combination of light and nature creates a calmness in the space it is displayed, and thanks to the blown glass diffuser the illumination is a soft and functional glow - which can also be easily dimmed whenever needed to create your ideal ambience.

This elegant and organic pendant produces a beautiful effect when displayed above dining tables, coffee tables and kitchen islands. It can also have a large impact in commercial spaces when suspended above shop counters, in hotels and in clusters in large stairwells or atriums.

This Vibia Pendant Light can also be supplied without a plant pot addition.

PRODUCT SPECIFICATION

Light Source:	9.2W, 2700K, 868 Lumens
