Panzeri Brooklyn Round LED Suspension

The Panzeri Brooklyn Round LED Suspension is a modular lighting solution designed for modern interiors, offering a combination of sleek aesthetics and functional versatility. Crafted from extruded curved aluminium with a ribbed lateral finish, the Brooklyn Round features a clean and contemporary design ideal for both residential and commercial settings.

Available in two configurations, Circular and Semi-Circular, this suspension light comes in multiple sizes: 100cm and 200cm diameters. With integrated dimmable LED technology via DALI/Push DIM systems, the Brooklyn Round delivers direct, diffused light through its opal polycarbonate diffuser, creating a warm and even illumination.

Finished in a choice of white, black, or matt brass, the Brooklyn Round effortlessly complements any modern decor. The suspension includes adjustable steel cables (up to 5m for larger variants), making it suitable for rooms with high or low ceilings. Whether installed as a single piece or combined in custom compositions using the semi-circular variants, the Brooklyn Round adds elegance and functionality to offices, halls, living areas, and large spaces.

For custom configurations or assistance in creating unique formations, please contact us.
