Normann Copenhagen Amp Small.

Amp collection by Normann Copenhagen was inspired by old tube amplifiers from the 1960s. The range features unique shapes and classic materials of marble and glass which add nostalgic aesthetic to an otherwise contemporary design feature. This beautiful blown glass shade is available in three colours and two sizes, allowing you to create a bespoke central feature. Amp small is ideal for lower ceiling heights, to mix with other shapes and to be hung singularly or as a multiple.

Normann Copenhagen Amp small is a compact and stylish pendant light, the design would be ideal for low ceiling rooms, hanging in multiples and for decorative accents. The Amp small pendant is perfect for social areas such as kitchens and dining rooms, but also hallways to add a touch of intrigue.
