## PRODUCT DESCRIPTION

**Designer:** Vibeke Fonnesberg Schmidt

### Normann Copenhagen Bau Pendant

The Normann Copenhagen Bau Pendant was designed by Vibeke Fonnesberg Schmidt in 2010. Bau is a true work of art that offers a perfect blend of creativity, innovation, and unique design. This luminaire is a perfect example of how composition and geometric shapes can be used to produce a breathtakingly beautiful sculpture. The attention-grabbing design of the Bau pendant is sure to add a touch of elegance and sophistication to any space, making it an ideal choice for those looking to create a statement piece in their home or office.

Crafted from wood veneer, the Normann Copenhagen Bau Pendant is available in two sizes, small and large, which can be featured in both a commercial and residential setting. Bau can be situated above a dining table as a centrepiece which evokes conversation and stories within its décor. Its natural aesthetic allows it to expertly adapt to a variety of contemporary interiors.

**Please note: this light fitting involves self-assembly, which is part of the playfulness of the design. An instruction manual is included.**
