PRODUCT DESCRIPTION

Designer: Edward Barber & Jay Osgerby

Flos Bellhop Portable Lamp

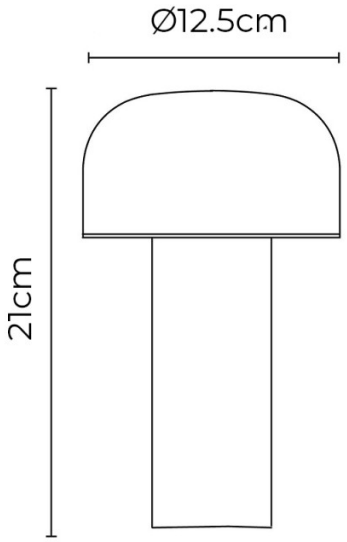

The Flos Bellhop Portable Lamp was designed by Edward Barber & Jay Osgerby for the new London Design Museum. The Bellhop grants the user ultimate flexibility as a portable lamp - allowing you to display it on a bookshelf, adorn a coffee table, or even place it on a bedside table, all without the restriction of wires. This lighting solution casts an atmospheric pool of light onto the surface below, and the portable ability of the lamp is likened to a modern-day candle.

The Flos Bellhop Portable Lamp has up to 24 hours of battery life and is rechargeable with USB-C. A push button on the base provides a 4-step dimming function (0-30-70-100%) to alter the light output as required and generate your desired ambience. The Bellhop also has a battery status indicator positioned under the base, offering maximum versatility without compromising on style.

Please Note: The Flos Bellhop can be used outside only in dry weather conditions and must not be left outside for extended periods.

PRODUCT SPECIFICATION

Light Source:	2.5W, 2700K, 151 Lumens
IP Code:	20
Dimming:	Integrated dimmer on the product.
Dimensions:	Ø12.5cm Height: 21cm Charging Cable Length: 120cm
