PRODUCT DESCRIPTION

Designer: Daniel Debiasi & Federico Sandri

Normann Copenhagen Stage LED Floor Lamp

The Normann Copenhagen Stage LED Floor Lamp was created by design duo Daniel Debiasi and Federico Sandri, who drew inspiration from the form and functionality of professional stage lighting, as used in film production and photo shoots. This inspiration can be found in the adjustable, tilting light source and the stable tripod base, while retaining a uniquely clean and light expression. Stage casts an attractive and warm beam wherever it is pointed, making it perfect for task lighting, whilst the dimmable light source allows it to provide softer ambient lighting too.

The Stage floor lamp can be used as a reading light or for mood lighting, depending on whether the light source is tilted for direct or indirect lighting. The lamp is available in a sleek black finish to fit any interior. Thoughtfully designed to feature in both commercial and residential environments, the Normann Copenhagen Stage Floor Lamp is a unique modern addition to your space.

PRODUCT SPECIFICATION

Light Source:	11W, 3200K, 770 Lumens
