PRODUCT DESCRIPTION

Designer: Kasch Kasch

Normann Copenhagen Cap Table Lamp

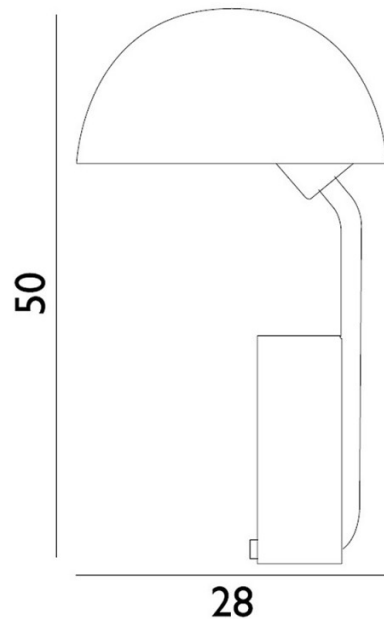

Normann Copenhagen Cap Table Lamp was designed by Kasch Kasch and is a functional lighting solution with a playful design. Cap boasts a bold personality and prides itself on functionality thanks to its adjustable shade. This gives the lamp a streamlined look, while the sloping pole that holds the socket and shade makes the expression welcoming and relaxed. Cap consists of a mix of iconic, geometric shapes such as circles and cylinders. This offers the lamp a streamlined look, while the sloping pole that holds the socket and shade makes the expression welcoming and relaxed. The white inner side of the shade reflects the light, while the rotatable shade makes it possible to direct the light in the direction needed.

Normann Copenhagen Cap Table Lamp makes for a functional reading lamp and an atmospheric lighting piece. Cap offers a palette of fashionable colour tones that can complement your existing decor and serve as an eye-catcher in a neutrally styled room. Available in three colourways: white, blush and midnight blue.
