Aura Pendant Light by Petite Friture

Designed by Tomas Kral, the Aura pendant is made from rolled sheet metal, a material commonly used for office objects and supplies. The lightweight nature of the material creates an airy look, acting like a veil surrounding the light bulb. The shade has a triangular silhouette and a lovely brass fitting which looks contemporary and stylish, suitable for any interior.

The Aura pendant light is available in 2 subtle colours, white or black, and provides a diffused, downward directed light that is wonderful for hanging over tables. The pendant is also available in 2 sizes, so you could mix and match colour and size to create variety in the room. Use in professional settings and homes to add a touch of modernity and functionality.
