PRODUCT DESCRIPTION

Designer: Jonas Wagell

JWDA Table Lamp by Audo Copenhagen

The JWDA table lamp was designed by Jonas Wagell and has become an instant classic in modern lighting design. The table light explores natural contrasts as a rounded opal glass lampshade sits on a sturdy and solid base. The base is made in several different materials such as marble, concrete and metal, exploring the countless possibilities of top-quality and superior materials.

The JWDA table light comes in eight different finishes and is equipped with a chic dimmer switch on the front of the base which differs in colour depending on the base finish you choose. The glass lampshade conceals the light bulb, providing a warm and effective illumination that is perfect for an atmospheric glow. Use in a wide variety of settings for an alluring and stylish solution that will stand the test of time.

Please note, the two marble finishes are slightly larger in size than the six other finishes available to purchase.

PRODUCT SPECIFICATION

Light Source: 1 x max 3.5W G9 (included)
