PRODUCT DESCRIPTION

Designer: Tim Rundle

TR Bulb Suspension Frame by Audo Copenhagen

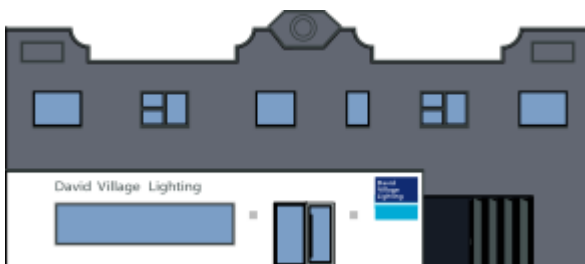

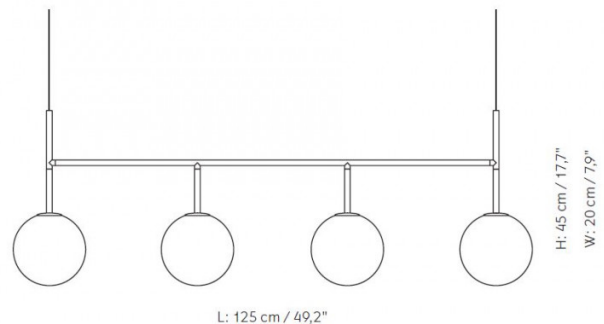

Designed by Tim Rundle, the TR Bulb suspension frame uses simplistic and practical ideals to produce a stunning centrepiece light, perfect for many rooms. The suspension frame holds four TR Bulb pendants which are made from lovely opal glass, diffusing the light and create a warm and effective glow. The glass shades are available with either a shiny opal or matt opal finish so you can achieve the look you want in your space.

The TR Bulb suspension light is available with either a black frame, suitable for a wide range of design styles. Do not miss out on this superb light that can act as a central light in dining rooms, lounges, hallways and more to provide the right atmosphere both at home and in work settings.

The bulb is integrated within the shade itself and; therefore, the shade and bulb need to be replaced as a whole. You can purchase a replacement in either a matt or shiny opal glass. Please [contact us for more information and pricing](#).
