PRODUCT DESCRIPTION

Designer: Tim Rundle

TR Bulb Wall/Ceiling Light by Audo Copenhagen

Designed by Tim Rundle, the TR Bulb wall/ceiling light is a simplistic and contemporary fixture that can suit a wide variety of settings. Consisting of a metal base and an opal lampshade, the ceiling and wall light provides an effective glow that will fill the space well. You can use in public spaces and homes, whether you need to line a corridor or illuminate a small office.

The TR Bulb ceiling/wall lamp is available in 2 metal finishes, brushed brass or black and with the choice of 2 opal shade finishes, matt opal or shiny opal. The choices allow you to find the right look for your interior and the modern design allows for versatility and a subtle aesthetic.

The bulb is integrated within the shade itself and; therefore, the shade and bulb need to be replaced as a whole. You can purchase a replacement in either a matt or shiny opal glass. Please [contact us for more information and pricing](#).
