PRODUCT DESCRIPTION

HAY Marselis LED Table Lamp

The HAY Marselis LED Table Lamp was designed by Studio Kaschkasch, which is formed of a duo called Florian Kallus and Sebastian Schneider, who aim for their designs to be a helpful and practical component of life that conveys character and attitudes. This particular design was inspired by the bent tubing around local street signs which is seen in the long mental tubing that arches around a circular disc of light. This light is formed of injection moulded polycarbonate opalescent lens that conceals a flat panel of LED light that has the ability to swivel and tilt in a number of directions.

This functionality is the main feature of this elegant desk lamp. The design features a heavy cast iron counterweight base allowing the light to stand up perfectly straight as it arches outwards. Another element of functionality would be the in line dimmer on the cable that makes it easy to adjust and manipulate the light in the surroundings. The HAY Marselis LED Table Lamp is available in two classic finishes which are Soft Black and Ash Grey. Both finishes highlight the simplicity and beauty of the design which make it ideal for any space or environment.

PRODUCT SPECIFICATION

Light Source: 4W, 2700K, 213 Lumens

IP Code: 20

Dimming: Integrated dimmer on the product.

Dimensions: Height: 38cm
Depth: 20cm
Width: 10cm
Cable Length: 200cm
