PRODUCT DESCRIPTION

Designer: Adriano Rachele

Slamp Veli Suspension

Inspired by world of fashion, where folds, pleats and soft structural shapes reign, Veli is sophisticated and glamorous. The Veli Suspension was designed by Adriano Rachele and was the first product in the Veli collection. This suspension light features a handcrafted diffuser carefully mounted on a magnetic system. With the Veli every individual bend is made of tone-on-tone printed Opalflex®, a patented techno polymer. This exclusive, patented material was specially designed for Slamp, it is transparent, flexible, unbreakable and strongly recommended by designers.

This luminaire emits a rich and warm light and is perfect for both domestic and large public spaces. Every diffusor is fitted with a magnetic hanging device for fast and easy maintenance. The light which passes through the beautiful shade does not glare and is diffusely distributed, making it functional yet not harsh. It is an expressive eye-catcher which perfectly fits in diverse furnishing styles.
