PRODUCT DESCRIPTION

Designer: Lee Broom

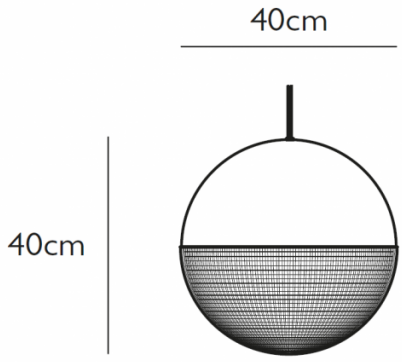

Lens Flair Pendant by Lee Broom

Inspired by telescopic lenses and the art of horizontal and vertical refractions, Lens Flair is a piece of two halves, seamlessly combining the solid and the transparent. A detailed cross-cut lens emits a soft deflected light, which is juxtaposed by contemporary solid casing in brushed brass or matte black finishes. Lens Flair makes a bold statement by itself, or multiple pendants can be hung to create a celestial installation.

The Lee Broom Lens Flair Pendant is a beautiful addition to restaurants, bars and hotels - adding a glamorous touch to the interior whilst catching the eye of visitors and guests. This pendant can also be utilised in larger residential interiors but is available as the **Little Lens Flair Pendant** which is a smaller version with a 20cm diameter, is perfect for smaller homes.
