PRODUCT DESCRIPTION

Designer: Adriano Rachele

Slamp La Belle Etoile Ceiling / Wall

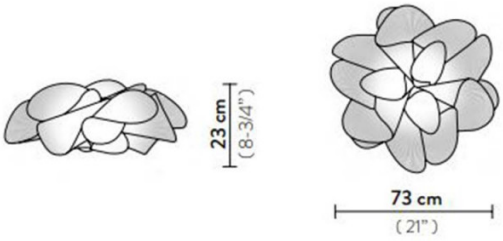

Inspired by a ballerinas tutu, the La Belle Etoile Ceiling/Wall is the definition of elegance. "The beautiful star" - is how designer Adriano Rachele named his lamp. The lightweight, yet durable lamp is completely hand crafted by Slamp in their patented Cristalflex®, this plastic is characterized by its flexibility and the positive influence on the light effect. The flexibility in the processing of the material allows the luminaire designers a lot of freedom in the creative process.

Not only is the La Belle Etoile fitted with a luminous LED source that can be dimmed from full illumination to a soft ambient glow, it can also be easily and quickly changed thanks to the modern magnetic hanging system that fits it to your ceiling or wall. The shade can be removed in seconds so that it can be cleaned.

La Belle Étoile brings luxurious glamour to any interior, accentuating it with a touch of refined elegance. The white texture printed on transparent, patented polymers, are elements that combine to create refined, contemporary design. It is reminiscent of the graceful movements of dancers, who were also the inspiration for Rachele when he designed La Belle Étoile. This light is especially impressive in comfortable living rooms and bedrooms, producing a warm white, dimmable LED light.

PRODUCT SPECIFICATION

Light Source:	15W, 2700K, 2150 Lumens
IP Code:	20
Dimming:	Non-Dimmable.
Dimensions:	Width: 73cm Depth: 23cm
