## Tynell 1965 Pendant by Gubi

The iconic 1965 pendant was designed in 1947 by Paavo Tynell for the infamous Finland House in New York, a showroom-gallery, restaurant and office project that existed to showcase the best of Finnish design on an international level. Being hugely successful, Tynell's designs have stood the test of time and are now being brought back to contemporary design by Gubi with a [Tynell collection](#).

The 1965 pendant is distinguished by its brass shade with perforated triangular patterns and its elegant lines which brings sophistication and subtly to any home décor. With a diffused light, this pendant produces a serene atmosphere and works best to produce a cosy and ambient atmosphere in lounging areas. With 5 colours available, you can buy several of the same colour to create a coherent design scheme or mix different colours to produce a more playful interior.

Designer: Paavo Tynell

IP Code: 20

Dimming: Dimmable via mains phase dimming

Dimensions:

Ø46cm shade

26cm shade height
