PRODUCT DESCRIPTION

Designer: Gabriele and Oscar Buratti

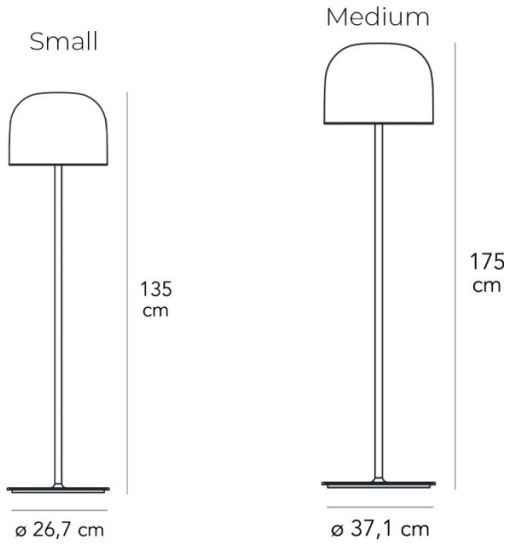

Fontana Arte Equatore LED Floor Lamp

The Fontana Arte Equatore Floor Lamp, designed by Gabriele and Oscar Buratti, presents a contemporary reinterpretation of the traditional glass-shade lamp. Instead of containing the light source within the shade, this innovative design places two luminous LED discs within a sleek central metal band at the "equator" of the lamp. These overlapping polycarbonate discs distribute light both downward and upward, softly illuminating the transparent glass shade and creating a warm, diffused glow that enhances the surrounding ambiance.

This floor lamp features a galvanised metal frame and integrated dimming capabilities, allowing you to adjust the light output to suit any setting. Available in a range of elegant finishes, the Equatore Floor Lamp is perfect for living rooms, bedrooms, and commercial spaces, offering both functional illumination and a sophisticated aesthetic. With its blend of cutting-edge design and timeless elegance, the Fontana Arte Equatore Floor Lamp is a striking addition to any interior.
