PRODUCT DESCRIPTION

Designer: Danos Salgados

Bover Beddy A/03 LED Wall Light

The Beddy A/03 LED Wall Light was designed by Danos Salgados for Bover as part of the Beddy collection, and is the perfect combination of sleek modern design and incredible functionality. The well balanced design features an adjustable shade that sits on either the left or right hand side of the design - depending on what works best for your space. No matter which side you choose, the integrated LED emits a glare free and warm glow, ensuring an ambient light output which is perfect for spaces that aim to provide a calming atmosphere.

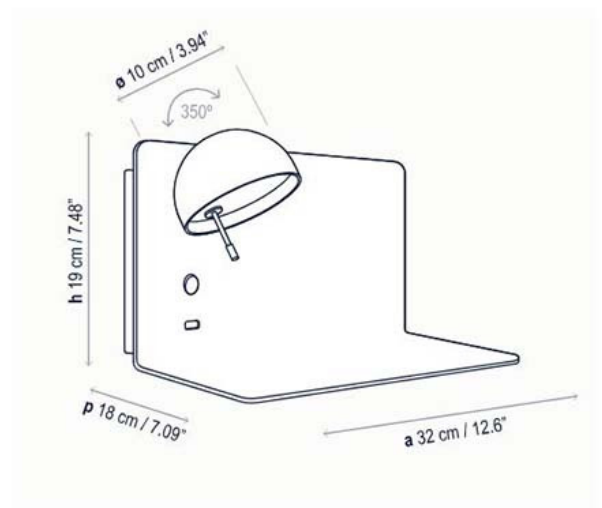

Similar to the Beddy A/02, the A/03 also boasts a built in table and an integrated USB port, once again making it a perfect spot to charge your phone or other electronics. The Beddy A/04 is a more diverse addition to the Beddy collection; although still perfect for next to your bed, it can also be incredibly useful in living rooms, work spaces and even commercial spaces such as cafes and coffee shops.
