PRODUCT DESCRIPTION

Designer: Gio Minelli

Fabbian Crio Pendant

The Fabbian Crio Pendant is a modern and sophisticated design by Gio Minelli. It is the result of his time studying polyhedrons as well as the process of working with aluminium sheets. The geometric pendant light is available with either an aluminium body and white finish or a darkened wood structure and finish, it is also available in two sizes.

The Crio Pendant also features a PMMA diffuser which helps to disperse the functional downlight into an even and glare-free illumination. For this reason, the Fabbian Crio is an excellent choice for kitchens, dining rooms, above workspaces, entryways and even in larger commercial areas. It is a beautiful addition to lobbies, shared offices, restaurants and bars. Crio can be displayed individually or clustered together with varying sizes to create a more dramatic installation.

PRODUCT SPECIFICATION
