PRODUCT DESCRIPTION

Designer: Santa & Cole Team

Santa & Cole Comodin Wall Light

Part of Santa & Cole's revival of natural materials, the Comodin is a fine example of what the brand stands for. Santa & Cole use wood, fabric, paperboard and other natural materials to create a different effect to the cold light produced by halogen light bulbs. The result is a shift in fashion and interior design, one that values simplicity and fine craftsmanship.

Each shade is unique with the fabric ribbons folded by hand. Santa & Cole collaborated with studio Raw Color in the Netherlands, in search of new hues to create new shades. The arched body is covered with a handcrafted ribbon or parchment shade and the Comodin wall light is available in two shapes, square or rectangular. A minimalist light for any interior space, both commercial and residential.
