PRODUCT DESCRIPTION

Designer: Flynn Talbot

Fabbian Freeline LED Suspension

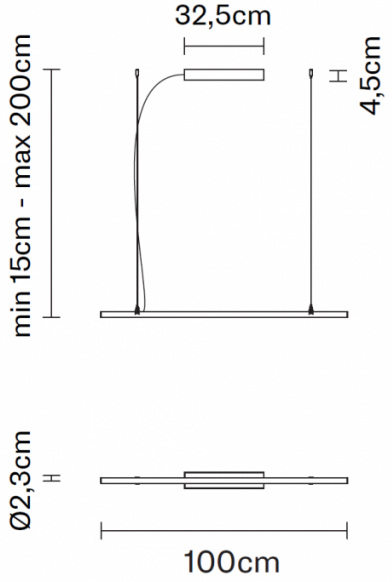

The Fabbian Freeline Suspension light by Flynn Talbot consists of an anodised aluminium bar with intricate detailing that is suspended from slender cables and produces directional illumination. This linear metal bar can be oriented either downward or upward depending on your own needs, allowing it to provide either a direct downlight or ambient uplight.

You can also choose the colour of the structure, with Fabbian offering either a Bronze or Black finish, both able to adapt to a multitude of contemporary interiors. Freeline expertly combines functional and decorative lighting, providing a stylish task lighting solution that is a beautiful addition to kitchen islands or counters, dining spaces, private offices and communal workspaces.

Please Note: The Fabbian Freeline Suspension is also available in a 200cm or 300cm length, as well as the option of a 2700K colour temperature. Please contact us for more information and prices.
