Wastberg W127 Winkel LED C2 Table Lamp

PRODUCT DESCRIPTION

Designer: Dirk Winkel
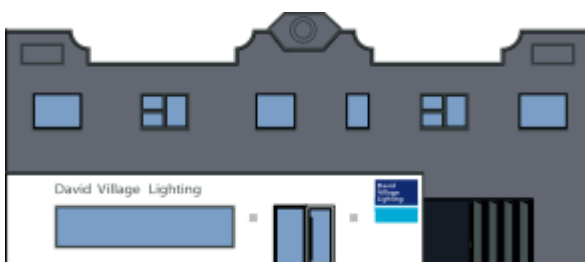

Wastberg W127 Winkel LED C2 Table Lamp

Designed by Dirk Winkel, the W127 Winkel LED C2 Table Lamp was curated to provide its users with a powerful but non invasive task light. The anti glare protection ensures an even distribution of light, whilst avoiding any harshness that others in the market provide. Wastberg and Winkel's goal with this lamp was to create the most efficient task light whilst still providing a warm environment for it's users.

The design of the Winkel appears almost futuristic, due to it's clear minimalism, sleek white finish and the visibility of the power cord and springs. This table lamp features a switch dimmer which is located on the head of the lamp, ensuring you can personalise the light output to meet your own needs. It also features a timer, turning the lamp off after nine hours in order to be energy efficient.

The C2 Table lamp offers a clamp mount, meaning it can be securely fitted onto your desk, saving space and ensuring you have as much room to work as possible.

PRODUCT SPECIFICATION

Light Source:	6W, 3000K, 1000 lumens
