PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Collect Low Socket Pendant Glass Sphere

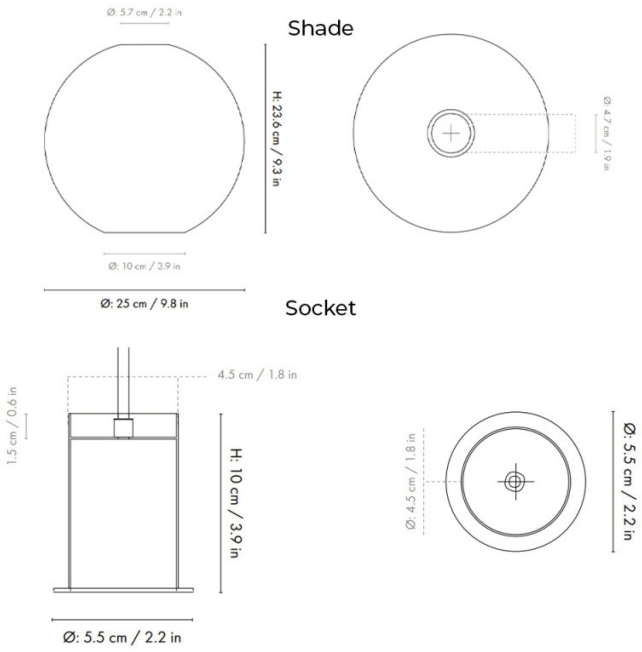

The Ferm Living Collect Low Socket Pendant Glass Sphere is a refined yet versatile lighting solution, designed as part of the modular Collect Lighting series. Featuring a perfectly rounded opal glass sphere, this pendant casts a gentle and even glow, ideal for creating a cosy and inviting atmosphere in residential and commercial spaces alike.

The low socket design keeps the shade closer to the ceiling, making it particularly suited for rooms with standard or lower ceiling heights. The contrast between the smooth opal glass and the structured metal socket, available in various finishes, enhances its timeless appeal. Complete with a 3-metre fabric-covered cord, a coordinating ceiling canopy, and a decorative ring, this pendant light is a sleek addition to dining areas, bedrooms, and living spaces.

Please note, this product is also available in a High Socket version and a Bell Socket version.
