Artemide

Artemide Calipso Wall/Ceiling

A unique and distinct light was created using an image of the moon and a complex algorithm. Calipso denotes the irregularities in the geometries found in nature. The honeycomb surface of the Calipso light is made of tubes with different diameters, randomly arranged to create a perfect circle. A union of aesthetics and optical intelligence. The Calipso is equally suitable for professional settings as well as domestic interiors. The large surface is not just visually pleasing, but emits an evenly distributed light emission. Get your Calipso light and choose a colour temperature of either 2700K or 3000K. The Calipso ceiling/wall light is also available in a [dimmable version](#) via the Artemide App.

Designer: Neil Poulton

IP Code: 20

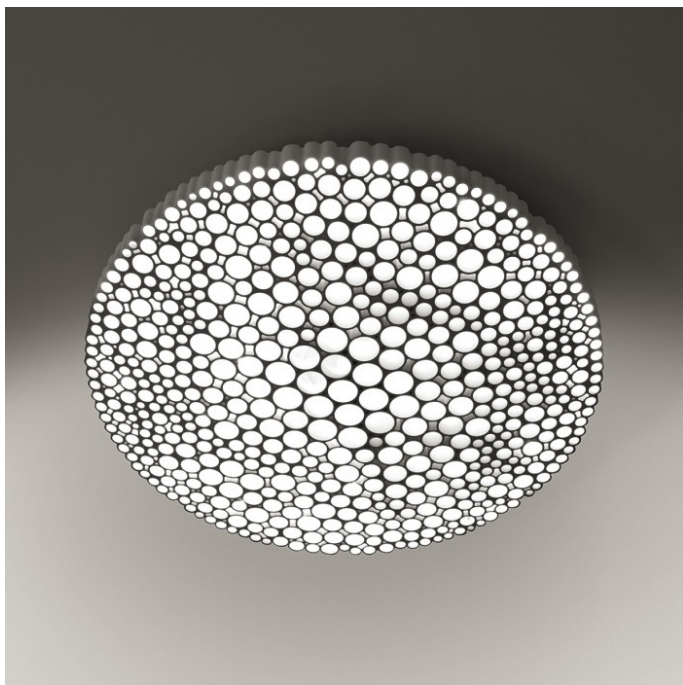

Dimming: Push to make/switch dimming, dimmable using push to make switches. Please consult your electrician, additional wiring may be required on site.

Dimensions:

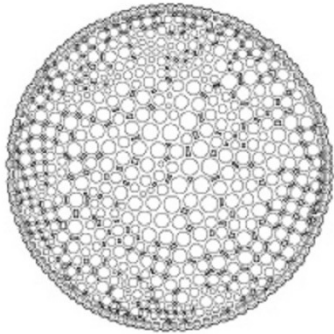

7.6 cm depth

Ø 52.6 cm

Colour: White 0210W10A
